

Soil-Guard™

Fabric Protector with

UV Filtta*

PROTECTING YOUR FURNITURE

Would you like the fabric of your choice to retain it's new appearance and to last longer?

Spills from drinks and food may cause unsightly stains and can be difficult to remove. Reducing your enjoyment of your furniture.

Create easy to maintain furniture.

Soil-Guard fabric protector guards your furniture fabrics from liquid and food based spills and releases dirt and soil easily†.

Soil-Guard forms an invisible barrier in and around the fabric fibre, preventing spills and soil from being absorbed into the fabric and possibly causing permanent staining and damage.

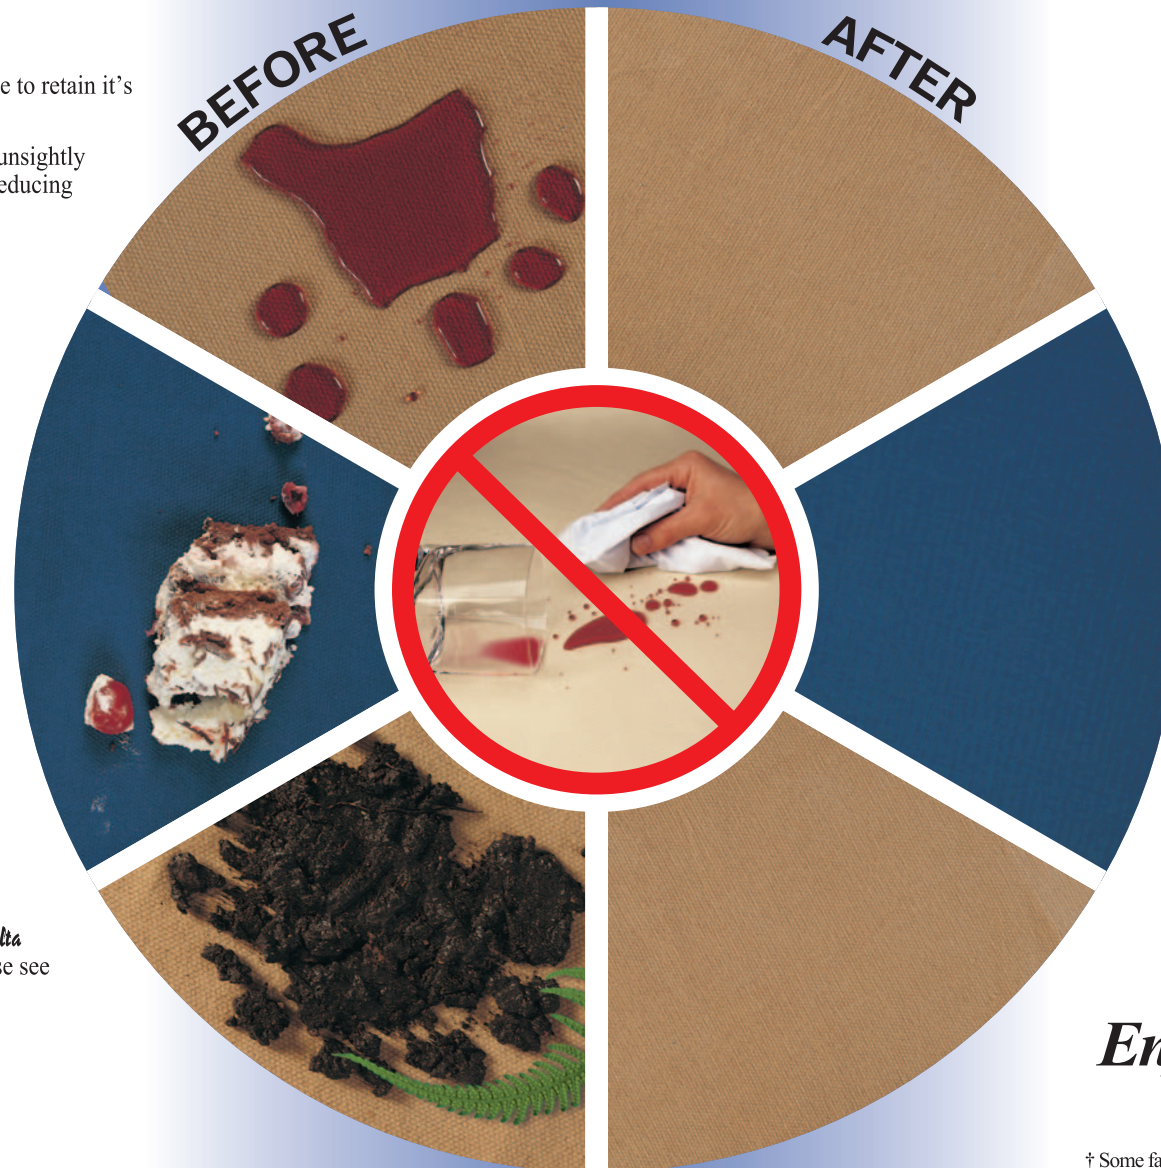

Soil-Guard Resists Liquid Spills

Soil-Guard Resists Food Spills

Soil-Guard Resists Wet and Dry Dirt

Soil-Guard Releases Soil and Dust

Soil-Guard Fabric Protector with **UV Filtta** carries a separate 5 year warranty, please see back page.

You are about to choose a fabric for your new furniture, unfortunately the colours will fade over time. Now you can reduce the effects of fading by using Soil-Guard fabric protector with **UV Filtta**.

UV Filtta is a product specifically designed to reduce the effects ultra violet light will have on your fabric.

UV light **will** cause colours to fade quickly and causes early fibre degradation.

Now with the addition of **UV Filtta** to the fabric protector we can prolong the life of the colours on your chosen fabric and reduce fibre deterioration.

UV Filtta works much like a sunscreen on the skin. It reduces the effects of the harmful rays of the sun.

The benefit is that the colours chosen will remain vibrant for longer.

How much longer depends on a number of factors:

- quality of dyes used
- type of fabric
- position of the furniture in your house.

UV Filtta will not stop fading from occurring but will discernably reduce the effect UV light has on colour and fabric.

Enjoy with confidence

† Some fabrics can demonstrate varying degrees of visual repellency depending on construction. Actual repellency should not vary.

Soil-Guard™
Fabric Protector with

UV Filta*

5 Year stain protection warranty

The warranty certifies that the described furniture's fabric has been treated with Soil-Guard™ fabric protector with **UV Filta**.

Should a stain occur after application, which can not be removed by an approved agent, that part of the furniture's fabric under warranty will be restored to its original condition†.

Soil-Guard™ fabric protector with **UV Filta** makes the cleaning of your furniture much easier and thorough. We recommend a regular vacuum clean and a commercial extraction clean every 18-24 months or more frequently if required.
